

## ESSA RE 8

**Kind :** Mechanical press

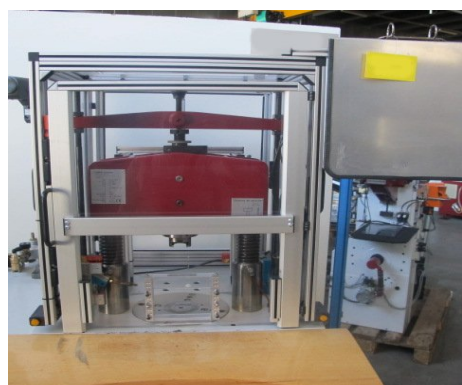

**Brand :** ESSA

**Model :** RE 8

**Year :** 2009

**Serial Nr:** 09-010

**Stock Nr :** P1357

Cutting and sharpening (descent in small sequences programmed for a cleaner cutting side)

### TECHNICAL DETAILS

|   |                           |
|---|---------------------------|
| - pressure                                    | : 4 [t]                   |
| - number of supports                          | : 2                       |
| - fixed table dimensions                      | : 210 x 210 [mm]          |
| - fixed press assembly                        |                           |
| - hole Ø in table                             | : 80 [mm]                 |
| - number of strokes in sharpening / cutting   | : 50 - 150 [c/min]        |
| - adjustable slide                            | : 40 [mm]                 |
| - fixed travel                                | : 27 [mm]                 |
| - max. height for tooling                     | : 148 [mm]                |
| - longitudinal clearance between supports     | : 230 [mm]                |
| - max. part diameter in sharpening            | : 30 [mm]                 |
| - max. part thickness in sharpening / cutting | : 1.5 / 2 [mm]            |
| - voltage                                     | : 380 [V]                 |
| - installed power                             | : 1.5 [kW]                |
| - floor space                                 | : 1100 x 1100 x 1650 [mm] |
| - weight                                      | : 500 [kg]                |
